SUMS Conference 2005

November 12

James Madison University

The Shenandoah Undergraduate Mathematics and Statistics Conference at James Madison University seeks submissions for talks and posters by undergraduate students.

Registration is free and open to the mathematical community, including undergraduate students and faculty, high school students, and high school math teachers.

Refreshments and lunch will be provided free to attendees who register by October 21. Modest travel support is available.

Support for this conference is provided by NSF grant DMS-0241090 through the MAA Regional Undergraduate Mathematics Conferences program, and by James Madison University.

Featured Speakers:

Arthur Benjamin
Proofs That Really Count

Greg Warrington
Juggling Probabilities

Undergraduate contributed talks and poster session

Graduate School and Industry Panel

Register by October 21, 2005
