Portfolio of James Arthur Johnson

Direct public access (NOTE: All sites assume at least involvement of XHTML or HTML5 and CSS in their development; additional technologies used in the development are noted and specified):

The form changes based on selection:

**Classified:**

---

**Getting Started**

At James Madison University, we are committed to providing our expert faculty and staff with competitive compensation.

“Total Compensation” includes not only salary, but also additional benefits such as paid leave, insurance benefits, retirement plans, educational assistance programs and more. Just as an example, insurance benefits available for qualifying JMU employees include health, dental, vision, and life. The total compensation estimator provides current and prospective employees with an illustrated breakdown of the total value of their total compensation.

**Directions**

1. Start by answering the questions on the left hand side.
2. All questions are required.
3. Click “Calculate”.
4. If you are unsure of your employment type or any other criteria used in the estimator as it relates to your position, please contact the [JMU Benefits Team](#) (ext. 83593).

---

**Supplemental retirement plan contribution (403b/457), per pay-period:**

**Yes**

---

**The JMU Total Compensation Estimator provides an approximation to be used for illustration purposes only and is not intended to be a substitute for formal financial planning advice. Individuals are strongly encouraged to consult with their own independent financial advisor for personal financial planning guidance.**
And there are other dynamic behaviors therein. The form also has validation, which will disable submission until the entry is corrected. Once entries are entered correctly and the form submitted, the output occurs in-page with a beautiful (and downloadable) 3-D pie chart from [https://www.amcharts.com/](https://www.amcharts.com/), using the variables and calculations from the form. Further, calculations are based on multiple coefficients stored in the CMS. My VelocityScript pulls these coefficients into strings, which are split into variables used in the JavaScript.
Here is a sample output:

Getting Started

At James Madison University, we are committed to providing our expert faculty and staff with competitive compensation.

‘Total Compensation’ includes not only salary, but also additional benefits such as paid leave, insurance benefits, retirement plans, educational assistance programs and more. Just as an example, insurance benefits available for qualifying JMU employees include...

(Note: Chart hides at resolutions 640px and below)
James Madison University Study Abroad Map. An interactive map that is also responsive. URL: http://www.jmu.edu/global/abroad/map/

Mouse hover selects part of the map:
Or one can select using the drop-down select menu activated on desktop by hover:
On mobile device in landscape orientation, one will still see the map and a drop-down select menu activated by touch:

One can also touch the map to be directed to the related Study Abroad Program.
Due to the impracticality of a map at smaller resolutions, it does not appear. However, the user can still get to the needed information using the drop-down select menu:
• James Madison University mobile-first responsive site. I was the developer for all Velocity Script, JavaScript, jQuery, CSS implementations, with technical architecture and support from Alvin Chao and design from Randy Budnikas and JMU University Marketing.
Expandable header navigation:
Secondary page with expandable side navigation:
Desktop Resolution:

Primary page (without side navigation) lower page featuring tabbed news/events/arts/sports feeds, Instagram feed and Twitter feed:
Desktop Resolution:

Primary page (without side navigation) footer, also responsive:

---

Desktop Resolution:

Primary Page (with no side navigation) using header navigation:
Explore our location
I later updated the look without the gradient and changed/added other features. Here’s the home page:
And here’s a secondary page, many now with breadcrumbs:

And of course, it continues to be responsive and mobile-friendly, looking very much like the above mobile screenshots.
Responsive (smaller images and expandable/collapsible menu at smaller resolutions):

CENTER FOR THE INTERDISCIPLINARY STUDY OF TERRORISM & PEACE
AT JAMES MADISON UNIVERSITY

THE ABSENCE OF TERRORISM ALONE IS NOT PEACE.

Less important content disappears at even smaller resolutions:

Responsive (smaller images and expandable/collapsible menu at smaller resolutions:)
Community-Wide Reading Experience

I'm delighted that you've decided to participate in the inaugural year of the "A Book for the 'Burg" community-wide reading experience.

Events

- "Ethical Reasons in Mountains Beyond Mountains"
- "Beyond Mountains: Photographs Inspired by the Passages of Nadine Round"
- "Exposure: Book Discussion at Mason County Regional Library"

Community-Wide Reading

"This compelling and inspiring book shows how one person can work wonders. In Mountains Beyond Mountains, Pulitzer Prize-winning author Tracy Kidder tells the true story of a gifted man who loves the world and has set out to do all he can to cure it.

In medical school, Paul Farmer found his life's calling: to cure infectious diseases and to bring the lifesaving tools of modern medicine to those who need them most. Kidder's magnificent account takes us from Harvard to Haiti, Peru, Cuba, and Russia as Farmer changes minds and practices through his dedication to the philosophy that "the only real nation is humanity.""

http://www.tracykidder.com/books/mountains/
- JMU School of Art, Design and Art History (with much design and dynamic side navigation jQuery code by James Arthur Johnson), URL: [http://www.jmu.edu/artandarthistory/](http://www.jmu.edu/artandarthistory/)

- Virginia Alliance for Secure Computing and Networking (VA SCAN) (with most coding and some graphics by James Arthur Johnson, all responsive coding and design by James Arthur Johnson, responsive on multiple devices and platforms), URL: [http://vascan.org](http://vascan.org)
Responsive:

Responsive at an even smaller resolution (navigation collapses and is accessible via touch):
The Virginia Alliance for Secure Computing and Networking (VA SCAN) exists for the purpose of strengthening information technology security programs within the Commonwealth of Virginia.

The Virginia Alliance for Secure Computing and Networking (VA SCAN) exists for the purpose of strengthening information technology security programs within the Commonwealth of Virginia.

- JMU – Forbes Center (Developed with XHTML, CSS3, jQuery, YUI grids, Snapfish horizontal navigation, NivoSlider, and other features): [http://www.jmu.edu/forbescenter/](http://www.jmu.edu/forbescenter/)
- tech @ Beacon Deacon – my simple online site to share tech, namely web development, with some of my own articles; organized using the DataTables plug-in for jQuery: [http://tech.beacondeacon.com/](http://tech.beacondeacon.com/)

- Valley Tool and Design, Inc. (Developed with HTML5/XHTML, CSS3, jQuery, YUI grids, and is responsive on multiple devices and platforms): [http://valleytool-design.com](http://valleytool-design.com)

Full version:

Responsive to tablet (nav becomes a CSS dropdown):
Welcome!

With over 30 years experience manufacturing quality linkage components for the heating and air conditioning industry, Valley Tool and Design, Inc., is a manufacturer of Damper Control Swivels, Crank Arms and Push Rods for the Heating and Air Conditioning Industry. We also deal with Aetna Screw Products and Cablecraft.
• JMU Mobile Site (Developed with jQuery Mobile, HTML5, compatible on multiple devices and platforms): [http://m.jmu.edu](http://m.jmu.edu) (mentioned in Madison Magazine, Winter 2013, p. 15 under Connections: [http://www.mydigitalrendition.com/publication/?m=20723&l=1](http://www.mydigitalrendition.com/publication/?m=20723&l=1))

• Campus Directory (including the Perl coding and LDAP coding for the search as well as the jQuery and YUI coding involved in the interface when using the cgi scripts beneath the initial page): [http://www.jmu.edu/directory/](http://www.jmu.edu/directory/)

• Benefits Representative Search (Developed using jQuery Autocomplete) [http://www.jmu.edu/humanresources/hrsc/benefitsrep.shtml](http://www.jmu.edu/humanresources/hrsc/benefitsrep.shtml)

• Barriers Reporting Tool (Developed with Perl/cgi): [http://www.jmu.edu/barriers/report.shtml](http://www.jmu.edu/barriers/report.shtml)

• ASP tutorial site (Developed with ASP): [http://people.jmu.edu/johns2ja/MyWeb/](http://people.jmu.edu/johns2ja/MyWeb/)

• My own Fundraising Thermometer (Developed purely with JavaScript): [http://educ.jmu.edu/~johns2ja/fundraisingthermometer.html](http://educ.jmu.edu/~johns2ja/fundraisingthermometer.html), which I implemented on the Commonwealth of Virginia Campaign site at [http://www.jmu.edu/cvc/](http://www.jmu.edu/cvc/)

• Demo of my fluidgrids.js script for use with YUI grids (Developed with jQuery, JavaScript and YUI Grids; Demonstrated its adaptive functionality, which could be used in Responsive Web Design at Cascade Server Users Conference in September 2012 during Alvin Chao’s presentation): [http://educ.jmu.edu/~chaoaj/csuc12/cascadesupportpage.shtml](http://educ.jmu.edu/~chaoaj/csuc12/cascadesupportpage.shtml)

• Footers Tutorial using Fancybox (Developed with Fancybox when clicking on an image): [http://www.jmu.edu/cascade/tutorials/footers.shtml](http://www.jmu.edu/cascade/tutorials/footers.shtml)

• Departmental Image Generator (Developed with JavaScript): [http://www.jmu.edu/wm2/docs/DeptImageGenerator/](http://www.jmu.edu/wm2/docs/DeptImageGenerator/)

• Color Comparison Utility (Developed with JavaScript and allows objects to be dragged for easier use): [http://educ.jmu.edu/~johns2ja/colorcompare.html](http://educ.jmu.edu/~johns2ja/colorcompare.html)

• Star Wars-themed learn multiplication game for children (Developed with JavaScript and tracks where you are in the game): [http://howzyerteeth.beacondeacon.com/DarthMult/](http://howzyerteeth.beacondeacon.com/DarthMult/)

• YUI Carousel Demo Site (Developed with YUI Grids and YUI Script): [http://www.jmu.edu/wm2/docs/carousel/index.shtml](http://www.jmu.edu/wm2/docs/carousel/index.shtml)

• Memorial Site (Developed with YUI Grids and YUI Script): [http://beacondeacon.com/pop/](http://beacondeacon.com/pop/)
The Beacon Deacon Web Site (a current side project, which is in the process of undergoing changes to implement HTML5/CSS3 and RWD – Responsive Web Design. Some of it is already responsive): http://www.beacondeacon.com/

Full site:

Windows Phone (responsive – including nav collapsing to a touch-activated hover menu):
• Batman Image Carousel (Developed with PHP, YUI Grids and YUI Script and now also is adaptive):  
  [Link](http://howzyerteeth.beacondeacon.com/Batman/images.php)

• Football game (Developed with jQuery): [Link](http://howzyerteeth.beacondeacon.com/football/)

• UNO! Game (Developed with JavaScript and I used CSS for the cards, no images. Also it is a single-file fully portable): [Link](http://howzyerteeth.beacondeacon.com/uno.html)

• B&N Vinyl Siding and Windows, Inc. (small business site developed with YUI Grids) [Link](http://www.bnvinyl.com/)

• Genealogy Site (Revamped from a rendering of the tree using ASCII characters in pretext into a site redeveloped with CSS and JavaScript): [Link](http://family.beacondeacon.com/index.htm)
Protected, still in development, or retired:

- Campus Directory Administrative Application ([https://www.jmu.edu/cgi-bin/directory/admin/select_d.cgi](https://www.jmu.edu/cgi-bin/directory/admin/select_d.cgi)) to edit the directory (Developed in Perl/CGI using SQL code to update the databases, jQuery and JavaScript):
Transfer Advising Snapshot Application ([https://www.jmu.edu/cgi-bin/wm2/transfer/snapshots/select_ss.cgi](https://www.jmu.edu/cgi-bin/wm2/transfer/snapshots/select_ss.cgi)) to edit Major and course details (Developed in Perl/CGI using SQL code to update the databases, JavaScript):
