# JMU Artificial Intelligence and Machine Learning Seminar Series

**Department of Mathematics and Statistics**

**Department of Computer Science**

## When?

Third Thursday of Each Month

4:10-5:00 pm

## Where?

Virtual Zoom Seminar

**Register at:** https://jmu-edu.zoom.us/meeting/register/tZUvfumrqTgoHNUF7-q-D7muKRk1Dk9uIQyt

There is hardly any area in our lives that has not been touched or transformed by Artificial Intelligence and Machine Learning. This monthly seminar series showcases recent advances and open questions in these far reaching and rapidly advancing areas. Topics include ethics and fairness, policy and regulation, technological advances, hardware, computing systems, methods and algorithms, mathematical analysis, as well as Artificial Intelligence and Machine Learning applications in engineering, physics, astrophysics, chemistry, materials science, biology, health sciences, earth and environmental sciences, transportation, operation systems, social and behavioral sciences, and others. Undergraduate students are strongly encouraged to attend.

**Organized by Hala Nelson (Math and Stats) and Nathan Sprague (Computer Science)**
