

MATH235 Calculus 1 Fall, 2010

Lecture

Instructor: Dr. Minah Oh

Email: ohmx@jmu.edu

Webpage: <http://www.math.jmu.edu/~ohmx>

Office: 116 Roop Hall

Phone: 540-568-4929

Office hours: M 9am-11am, Th 9am-11am, and by appointment.

Text: University Calculus by Hass, Weir, and Thomas, Addison-Wesley/Pearson 2007.

Grades

There will be two exams (15% each) with no drops and a comprehensive final exam (30%). Additionally, there will be ten pop-quizzes (3% each) and one project (10%). Quizzes will always be given in the beginning of class, and there will be NO MAKEUP QUIZZES given for any reason. If you come to class ON TIME everyday and if you know how to do all homework problems up to the previous lecture, you will do well on these quizzes. The project, which will be related to history of Calculus, will be announced at least two weeks before its due date.

Quizzes 30% Project 10% Two Exams 30% Final 30%

A⁻ to A : 90 – 100

B⁻ to B⁺ : 80 – 89

C⁻ to C⁺ : 70 – 79

D to D⁺ : 60 – 69

F : 0 – 59

Homework and Attendance

A list of homework problems will be posted on my website. Homework will not be collected, but problems that are similar to homework problems will appear on your exams and quizzes. I will not take attendance, but there will be no makeup quizzes for those who missed or who were late for class. The exams will be written in a way that people who come to class will have the advantage.
