

MATH 108 FINAL ASSIGNMENT

You are to create a three member team. Each team is to choose a topic from PART III: Chapters 16-26 and write a three to five page lesson plan. The lesson plan should be typed up. Figures can be hand drawn in the typed up plan. The plan should include what the lesson is, what the student is expected to learn and have two to four exercises (examples) with worked out solutions. This assignment is worth 50 points and is due the day of the final (Wed., Dec. 11. 10:30). Your three to five page lesson plan should have a cover page with the three team members names printed and signed. Your signature means you followed the honor code in doing this assignment.
