11 th													11 th
12 th													12 th

(Circle One)

Robot Design Project Core Values

Room: _____

Fill in the ranking after every judging session. Move teams up and down in the rank order as needed to maintain the "totem pole" as an accurate representation of each team's relative performance in your judging room.

For tournaments with multiple judging rooms, each room will assist with merging their ranking with the other judging rooms as part of the deliberation process.
