

Math 232 Spring 2004
Quiz 6 (2/26)

Name: _____

This quiz is worth 10 points and you have 10 minutes to complete it. Show all work and circle your final answers.

Calculators are NOT allowed today.

1. (10 pts) Find the domain of $f(\theta) = \frac{1}{1 - \cot \theta}$.

Show all work clearly and in order and put your final answer in the box below. Your work should include a picture of the unit circle that clearly shows the angles that are NOT in the domain.
